NEWS SUMMARY.

Ulty Affairs.

-An adjourned meeting of citizens of the Fifteenth ward, to act upon the shortness of the supply of water for the ward, was held last night at the northeast corner of West and Coates streets, Mr. Wm. H. Snowden presided, and Mr. William H. Kemble acted as

Mr. T. W. Price, chairman of the committee to wait upon the Chief Engineer of the Water Department, reported that they had an interview with Mr. Graff, who was much surprised to learn of the deficiency. He stated that the water in the different reservoirs had been kept and was then within a foot of the high water mark. He was unable to account for the shortness of the supply, but supposed there must be some local cause for it. He thought that probably there were some stopcocks turned off that they were not aware of, and was having them examined.

Mr. Harper said that he had been told by an engineer that there was a difference of eight feet in favor of the Spring Garden basin (the one that supplies the district) between it and the Corinthian avenue basin (the one that supplies the lower part of the city). If the connection between the two basins was opened, as it was said to have been on Saturday last, it might account for the deficiency.

Mr. Kemble suggested that unless some one had been tampering with the water, the Chief Engineer must certainly know the reason of the difficulty, having so thorough a knowledge of the system. Other gentlemen said that the supply had been growing shorter and shorter for the last three years, and it culminated on Saturday last, though it had been somewhat better since. It was a very serious matter, and if on Saturday last a fire had occurred in this neighborhood there would have been no water to extinguish it, It placed a number of families in great danger of explosions of boilers.

Mr. Kemble offered a resolution that, as the Chief Engineer had admitted his inability to give any satisfactory reasons for the sudden failure of the supply of water for the Fifteenth ward, that Councils be requested to appoint a commission of competent engineers to examine into and report upon it. It

meers to examine into and report upon it. It was adopted, and the meeting adjourned.

—The following cases were admitted to the Pennsylvania Hospital yesterday:—Julia Mc-Laughlin, aged nine years, living at Third and German streets, arm fractured. John Roberts, aged twenty-one years, residing at Front and Mead alley, arm fractured.

—The Telegraph of Tuesday contained a reference to the discovery in Kersey Day, on

reference to the discovery, in Kersey Dam, on the road from Carlesburg to Frederick, in Kent county, Delaware, of the body of a peddler, supposed to be Thomas Hogan of Philadelphia. The description then published has led Mr. Martin Cranston, tinsmith, No. 707 Shippen street, to come forward and state that he believes the deceased to be Thomas Hogan, who for ten years has been living with him as a boarder. Hogan, who was formerly a sailor, was in the frequent habit of visiting Delaware for the purpose of collecting muskrat skins, and he left Mr. Cranston's on his last trip on Tuesday, the 15th inst. (the body was found on the 19th), and his absence over one weak his result trip. his absence over one week, his usual trip, first occasioned alarm. He was a man about fifty years of age, sober and industrious, and not in the habit of carrying with him more money than was necessary to make his small pur-chases of skins. Parties who know Thomas Hogan will to-day visit the place where the body now is, for the purpose of identify-

-Between 11 and 12 o'clock on Tuesday night, as Mr. Fales and his wife were approaching their home on Forty-first street, above the Lancaster Pike, a man stepped out from a place of concealment and told Mr. Fales to stop. The sudden appearance of the man and his manner alarmed Mrs. Fales, and she ran up the street, followed by her husband. The highwaymen went a short distance after them, and then turned back. Mrs. Fales was so much overcome with terror that she dropped her muff and shawl in the street, and before reaching her own door she fainted, and remained unconscious for some

time. —Yesterday morning, Michael Mohan, residing in Maple street, below Melvale, engaged in a quarrel with his wife. In the course of the conflict he was struck in the breast and thrown down, and in falling he fractured his thigh. He was removed to the Episcopal Hospital. His wife was arrested and held for a hearing.

Domestic Affairs. —Gold closed yesterday at 112.

-Montreal expects a Fenian raid. -A military post is to be established at Pembina.

-Dr. Bard has been confirmed as Governor of Idaho. -The Border Raid bill was killed in the House last night.

—The passengers and crew of the wrecked steamer Golden City are all safe. Over forty families have been massacred in Western Texas by Comanche Indians. -The St. Domingo treaty was further dis-

cussed in executive session of the Senate yes--All is quiet in the Red River country. Riehl has released all his prisoners save

Major Boulton. -Governor Geary sent a message to the Legislature yesterday urging the repeal of the

Delinquent Tax act. -The funeral services over the body of the late General Thomas were held in San Fran-

cisco yesterday efternoon. -Mr. Boutwell is sanguine of the Funding bill passing the House without material alteration in the bank section.

-It is again asserted in Havana that Gene ral Jordan has resigned the command of the Cuban army, and that he has left the island. -An attempt will be made in the Senate to-day to virtually kill the St. Domingo treaty by voting down the motion to go into execu-

tive session. -A bill has been introduced in the Legislature, at the request of the Water Department, to regulate the manner in which the water is to be used.

-A large number of Jerseymen resident in Washington called upon Justice Bradley last evening and congratulated him upon his appointment.

-A meeting of army officers was held in Washington yesterday, at which a committee was appointed to make arrangements for paying a suitable tribute to the memory of the late General Thomas.

Foreign Affairs.

-Mazzini urges a revolt in the Romagna. -John Bright, it is said, will shortly resign his seat in the Cabinet. -It is reported that the Œcumenical Coun-

cil has adopted the fifth proposition. -Further disorderly demonstrations have been made against Dr. Tardieu by his

-An expedition, it is said, is being fitted out by the English Government to repress the

Red River revolt.

NEW JERSEY M. E. CONFERENCE.

Thirty-fourth Annual Session - Seventh Day's Proceedings - The Vote on Lay Delegation - Appointments for the Year.

Long Beanch, March 30. - At the afternoon session yesterday a vote was taken on the Lay Delegation question, with the following result:-Yeas, 76; nays, 46.

P. Cline, from the Sunday-school Committee, presented a report showing within the bounds of the conference 351 schools, 5128 officers and teachers, 30,500 scholars, and 1429 conversions in the schools during the year. A series of resolutions relative to the work accompanied the report. The report was adopted.

Bishop Simpson delivered his closing address, in which he referred eloquently, and with much feeling, to the deaths of Bishop Thomson and Dr. McClintock. He also referred incidentally to the deaths of Harpers, Odell, and Connell, and asked, in the departure of so many great men, has God got a controversy with us? He closed with a strong appeal to young men to emulate the example of Bishop Thomson. The Bishop then read the list of appointments, after

which the conference adjourned.

Dr. J. Solls Cohen's Lecture on "Acoustics." Last night Dr. J. Solis Cohen delivered his first lecture on acoustics, exhibiting by a number of delicate experiments some of the poetry of sound. Optical expression was given to the relations of musical intervals by beautiful flame figures, and a really interesting exemplification made of the conversion sound into thought. An oracular head similar to that of Albertus Magnus was exhibited, and the following coloquy took place between Professor Elsberg (who came from New York expressly to assist in the experiments) and the oracle:-

PROFESSOR ELSBERG. Thou lonely relic of a bygone age, Transplanted to a Philadelphia stage, Exert the powers of thy earlier years, And to our queries lend attentive ears.

OBACLE. Speak, and be quick! my course is nearly run! My weary life ends with to-morrow's sun; To classic slumbers then I gladly fly, And bid this skeptic world a last "good-by. The breath that long my ancient bosom filled Will soon depart and this aged voice be stilled. Quick, mortal, speak! For, as the end draws

To but three questions may I grant reply. QUESTIONER. An hundred years their latest decade drag Since first the breezes kissed Columbia's flag; Then, tell me, dame, the fate that lies in store,

When waves that flag an hundred twelvemonths

more? The coming century is big with fate! A glorious future doth that banner wait! see it floating o'er all climes and lands, see all nations stretch to'rds it their hands. Alaska in her wake doth bring the Czar; The Danish isle her mother calls from far The "New Dominion" seeks her place in Zion, And in her leash she leads the British lion. The rest of Europe, feeble grown and old, Now seeks protection in a stronger fold; While Cathay's millions to Columbia hie, And to the new their ancient empire tie. With myriad stars the galaxy's increased. From North and South, from West and gorgeous

East, Till So! illumes, as this earth rotates, One brilliant concourse of United States.

From coast to coast, above the ocean wide, schold great bridges span the surging tide; While neath her depths, ay, through earth's very core, Pneumatic tunnels lead from shore to shore!

What else? About the arts? ORACLE.

Galvanic brush shall paint the artist's dream, And sculptured forms be chiselled out by steam; While music, ever foremost in the race, Will find in every home a dwelling place; And just as water, gas, and heat their chambers

Can be turned on by stopcock, or turned off at QUESTIONER.

ORACLE,

As telegraphic wires, from one chief central station Flash to a thousand points the same communication, So telephonic wands sweet sounds will safe

convey, And in a thousand homes the self-same music play.

This introduced the telephonic concert, which consisted in conducting music from distant performers through deal rods entering the room where the experiment is being performed. When a sounding-board, as a guitar, is placed upon the rod, the music is heard, and is instantly shut off when the

sounding-board is removed. The lecture was delivered to a select and appreciative audience, at the Amateurs' Draw-Room, under the auspices of the Irving Literary Association, a rising society, of which the lecturer is one of the honorary

THE UNIVERSITY MEDICINES ARE THE FAVORITE PRESCRIPTIONS

New York Medical University. Reliable Remedies of a high Scientific character, de Reliable Remedies of a high Scientific character, designed for the cure of all diseases.

PREPARED STRICTLY ACCORDING TO THE LAWS OF Madical CHEMISTRY.

The University Medicines are precised in consonance with the views of a number of distinguished living American Physicians, who believe that the time is come when educated Physicians should arise and make a decisive effort to overthrew the health-destroying system of Quackery prevailing in every town and city, and substitute SCIENTIFIC RESPONSIBLE REMEDIALS, in place of the worthless or dangerous Patent Medicines flooding the country.

of the worthless or dangerous Patent Medicines flooding the country.

These remedies are prepared by the newly discovered Chemical process of Professor Scott, termed SPEAM FILTRATION, by which the entire Active Principle of any herb, drug, or chemical is thoroughly extracted, and its curative properties increased a hundred fold over those made in the ordinary manner.

They are standard, most of the ingredients constituting them baving been used by the physicians of the University, in their private practice, for more than twenty years. Although but recently brought before the public in their present form as FIRKELE REMEDIES, they are rapidly superseding the old poisons, Patent Medicines and Nauscous Bruys.

They are taken in small doses.

They are pleasant to the taste.

Their effects are almost instantaneous.

There are hamless to all We have no one CURRE ALL for all diseases, but a regular system of Kemeeies for each distinct class of maladies.

A list of our Remedies and a valuable Medical Book sent free to any address.
